1. The following is an examiner's statement of reasons for allowance:

The closest art of record, namely Steele, Jr. (5,903,899), does not teach nor render obvious the claimed stack system as defined in the independent claims having a unidirectional stack and means for tracking the stacks growth to determine the farthest location the stack has grown relative to a base during program execution (i.e. claimed "high water mark"). The claimed "high water mark" differs from Steele's stack pointer in that the stack pointer (SP) moves as shown in figure 2c of the present invention. Over time given program execution the stack pointer may recede from the farthest location relative to the base. The claimed "high water mark" maintains this farthest location.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack A Lane whose telephone number is 703 305-3818. The examiner can normally be reached on Mon-Fri from 7:30AM-6:00PM.
